

Benefit from solar power, without your own installation.

Energiekooperativ Uelzechtdall (ECUD) connects ECUD members who generate wind and solar power with ECUD members who want to use that electricity.

Join in 3 steps

1

Go to ecud.wattswap.lu or scan the QR code.

2

Register in **3 minutes**.

3

Benefit **automatically** from cheaper electricity.

SCAN AND REGISTER

ecud.wattswap.lu

In ECUD's energy community, members from across the country share their wind and solar power with one another.

The energy community is registered in ECUD's name.

Our service provider WattSwap takes care of the billing and the administrative steps.

WITHOUT AN ENERGY COMMUNITY

THE ELECTRICITY PRODUCER EARNS

3 Cent/kWh

(on average)

THE ELECTRICITY CONSUMER PAYS

13 Cent/kWh (+ grid charges)

(energy price)

WITH AN ENERGY COMMUNITY

Better and fair prices for everyone.

THE PRODUCER EARNS

10 Cent/kWh

(national energy community)

THE CONSUMER PAYS

10 Cent/kWh (+ grid charges)

(national energy community)

14 Cent/kWh

(local energy community with neighbours within
a 300 metre radius)

14 Cent/kWh (all included)

(local energy community with neighbours within
a 300 metre radius)

No change of contract

Your contract with your current supplier simply continues as normal.

Completely transparent

You can see exactly how much electricity was shared with you.

No risk

No registration fee, no fixed costs.

No commitment

It can be cancelled at any time, free of charge.

No work for you

Our service provider WattSwap takes care of everything (billing, registration, deregistration).

An advantage for ECUD members

All WattSwap fees are paid by ECUD.
